## **Silent Words From The Heart: 25 Original Poems About Love and Heartbreak**

Plenty of tales of dystopian futures focus on everyday people trying to live out their lives even as sinister forces prey upon. This book, as far as I have read, appears to me to contain the best system of Geometry I have ever known of: the Axioms are but five, 7 and all follow so perfectly and so immediately from the definitions that nothing can more plainly confirm the proposition of Hobbes that definitions are the sole principles; 8 the definition of a straight line in particular much excels that of Euclid, 9 being simply that a straight line is the shortest which can be drawn between two points; this is not only a much more intelligible definition than that of a line which lies evenly between its extreme points; but it reduces to nothing the demonstration that two sides of a triangle are greater than the third side; for this is an immediate conclusion from the definition.
