Indeed the only tool markings at the Ollantaytambo quarry site are at the bottom of the quarried area where hatched parallel lines suggest high-speed diamond-edged cutting equipment or something very similar. There are no discussion topics on this book. The annual flooding of the Nile River, and its connection to the star Sirius was of paramount importance during this era, and it is demonstrated how much of the mythology and symbolism of later Ages and cultures are actually derivations from this fundamental mythos - in which the Mother Goddess was revered rather than vilified, as the case has subsequently become during the Ages of Aries and Pisces.

A professionally untrained teacher is likely to have no personal commitment. Teachers have their own educational objectives and ideas about achievements that are limited by their narrow perspectives, neglect of relevant factors and misjudging of what things come. As Barry Eichengreen, one of the authors featured in this book, has noted, if the global economy-or the economies of developed countries or, more specifically, the European economy-does experience secular stagnation, it will be self-inflicted, signalling a failure to repair the damage caused by the Great Recession and adopt effective policies for boosting demand and correcting the structural flaws that pose a hindrance to rising productivity and economic growth.
